CCO/stevepb/pixabay Sometimes it seems like your hamper is constantly filling up with dirty clothes, costing you more and more time. And even after you wash them, your clothes may not be as clean as you would like if you don't have quality equipment. However, laundry doesn't have to be a huge hassle, and giving your clothes a truly deep clean isn't something you have to go to a laundromat to get. These washer and dryer sets represent the best of laundry technology and can make your life cleaner, easier and softer than ever before. If you're shopping for a new dryer and washer, these sets should be at the top of your list. Samsung Washer and Dryer With Steam The Samsung Champagne Front Load Steam Washer with matching electric dryer not only looks great, but is also equipped with a steam function to sanitize and refresh clothing for a truly penetrating clean on top of its 1,200 rpm spin rate. With 10 preset washing cycles and five temperature cycles, you can customize each wash and dry based on material and personal preference. It even comes with Self Clean+ technology that keeps the washer drum itself clean and hygienic and reminds you to wash the drum every 40 wash cycles. Meanwhile the Smart Care feature lets you diagnose problems with your machine by sending a signal directly to your smartphone. The washer can take care of business in only 29 minutes without sacrificing cleaning power through a combination of jet spray and an independently rotating tub and motor pairing. Together, the friction of garments rubbing against each other combined with the water flow results in thorough yet fast cleaning. Meanwhile, the combination of TurboSteam and LoDecibel technology in the dryer ensures an effective yet quiet drying experience. On top of that, both units can be commanded and monitored using the LG SmartThinQ app, which in turn can be connected to Google Assistant or Amazon Alexa.
